modular & flexible designs to change with the times

We understand organizations are only as good as their people. So we've set out to foster their creativity, facilitate processes and meet needs through efficient workplace and healthcare solutions.

Cubicall Nevada-made privacy and isolation solutions work within current plans.

Costly build outs not required.

ACOUSTICALLY SOUND

Keep conversations private and escape from the noise.

EASY INSTALLATION

Booths ship flat, easily assemble with a few tools, and move with the changes.

CUSTOMIZATION

Choose colors and finishes to match your branding or office design.

MADE IN NEVADA

Designed and manufactured with quality and sustainability in mind.

isolation rooms for testing & care

Isolate aerosol-generating medical exams and tests with hassle-free, automated disinfection.

Cubicall isolation solutions feature negative pressure HEPA filtration, UV germicidal irradiation, hospital-grade flooring & antimicrobial walls.

- Save time by cleaning and disinfecting smaller areas
- Ensure safety and compliance by isolating patients and aerosol generating procedures
- Easily reconfigure layouts or breakdown and store for future needs
- Prepare for future crises

EXAM PODS

Isolate employee testing to keep workplaces safe and productive.

Isolate medical exams to help ensure efficient processes and healthcare compliance.

ISOLATION POD

Modular isolation solution with a larger footprint to address expanded requirements—configurable in 2' increments.

efficient solutions

In field tests, doctors reported that they were able to see *double* the amount of patients within a given time period.

modular privacy & focus solutions for modern offices

Create dynamic and flexible workspaces that inspire, improve satisfaction and increase productivity.

PHONE BOOTH

An essential for modern offices.

A flexible and cost-effective solution for private communication, heads-down work, or virtual meetings.

UV PHONE BOOTH

Hassle-free disinfection after each use.

Using the latest UV technology and military-grade sensors, the automated process inactivates bacteria, pathogens and viruses—including SARS-CoV-2, the virus that causes Covid-19.

MEETING ROOM

Foster innovation and collaboration.

Keep 1-on-1 discussions private and give teams space while making the most of your floor plan. A creative space for new ideas and growth.

STUDY

The office within an office.

The modular, pre-fabricated Study from Cubicall is perfect for temporary private offices or extended focus needs to meet those can't-miss deadlines.
